

Infor M3 Bank Integrations

Alliance
Partner

Connect quickly with leading financial services organizations and accelerate payment processing and reconciliations

What is it?

Pre-built M3 bank integrations developed using MEC and ION allow users to quickly connect M3 with banks and accelerate payment processing and reconciliations.

Popular integrations include **Bank of America**, **HSBC**, **CitiBank**, **Standard Chartered** and **Deutsche Bank**.

Specific Features

- Facilitates a range of payment methods: ACH, RTGS, NEFT and TT/CBT
- Automates payment proposal generation
- Automates bank reconciliation

Why do you need it?

- To reduce costs involved with manual transaction processing
- To automate accounts reconciliation
- To increase reliability and accuracy

Approach & Timelines

- Establish a common MEC-based platform
- Define bank-wise variance
- File format confirmation with banks
- Set up a connection with M3
- Testing and training
