

Empowering your business teams with Power BI

Looking to put your data game into motion, but struggling to bridge your Power BI skills gap?

While Power BI is an incredibly robust tool, most enterprises are only scratching the surface when it comes to leveraging the capabilities of this powerful tool.

As a Power BI solutions partner who delivers Dashboard in a day event partnered with Microsoft, Intellint is well-equipped to upskill your team so they can convert your raw data into meaningful insights. Our experts will:

Take a hands-on approach to meet your team where they are at, irrespective of their experience level;

Conduct practical exercises that cover 'real-life' applications of Power BI for your specific industry and business;

Address specific challenges in your teams' Power BI reports and dashboards

What will your team take away?

Once the training is complete, your team will walk away with the ability to:

- 1 Create and publish interactive reports and dashboards
- 2 Visualize complex data sets to identify trends, forecast risks and solve issues
- 3 Eliminate time-consuming, manual reporting on excels
- 4 Automate manual data preparation tasks to reduce the analytics cycle time
- 5 Improve data quality and minimize errors by leveraging Power BI capabilities

Select the right plan for your organization

Standard Package	🕒 1 day	Customized Training
<ul style="list-style-type: none"> • Comprehensive 1-day online training program covering, <ol style="list-style-type: none"> a. Introduction to data analytics using Power BI and data modeling b. Connect data from Excel and define business rules and KPIs using Power BI Measures c. Build, share and publish reports and dashboards with Power BI's visualization tools • Review of source systems & data integration solutions • On-site option available with OPE added for 2 trainers 		<ol style="list-style-type: none"> 1. Connect, import, and transform data from Excel data sources. 2. Define business rules and KPIs using measures, and explore data with powerful visualization tools. 3. Build functional reports and dashboards, share them with your team and business partners, and publish them to the web.

A Long-term Partnership

We understand that transformation does not happen overnight, and that leveraging data analytics is a continuous journey. Understanding the full breadth of Power BI's capabilities and applying the learnings to your business might result in new questions.

Our experts at Intellint are available for continued support through our on-demand consultation packages. Whether you are looking to build an analytics solution from the ground up, troubleshoot Power BI issues, set up a data strategy, or overcome governance challenges in your data analytics journey - we can do it all.

Our Customers

Hear from our customers
